Course Content

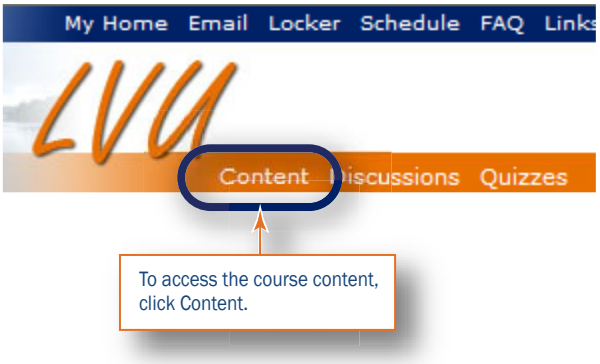
Quick Start

Content is where you find course material such as the syllabus, lecture notes, and readings.

Sections

- Accessing Course Content
- Viewing Course Content
- Navigating course content
- Submitting feedback

Accessing Course Content



Note If a specific learning path has been defined for your course some content areas are only available to you once you complete prerequisite sections or assignments.

Viewing Course Content

When you access the Content tool you see the table of contents or a custom home page, depending on the course.

Navigating course content

Use icons to:

- Navigate between topics.
- Show or hide the content map in the sidebar.
- Get help on the topic.
- Discuss the topic.
- Print the topic.
- Add or remove bookmarks.
- Open the topic in a new tab or window.
