Fulfilling U of M Liberal Education Requirements:

All University of Minnesota degrees require the completion of specific Liberal Education requirements. These Liberal Education requirements can be completed at most community colleges and universities for transfer to the U of M. **Most College of Design (CDes) majors require a set sequence of (usually studio) courses only offered at the U of M. Thus, you should apply to transfer to a CDes major as soon as possible so you can begin enrolling in those sequenced major courses.** Consult with a CDes transfer adviser for more information. Please note that the state community colleges also offer the **MN Transfer Curriculum** which—if completed and certified on the transcript sent to the U of M for admission—will be used to meet almost all Liberal Education requirements at the U of M (note: not including the Technology and Science theme requirement). Talk to your community college advisor about this option!
