Essay Question 1: Teamwork, Collaboration, and Accountability.

Describe one specific teamwork experience from your academic, professional, volunteer, or personal life. We are looking for a single specific incident in which multiple people worked together toward a common goal. Explain your role, how the team communicated, how decisions were made, how responsibilities and accountability were managed, and what the team accomplished. This question assesses teamwork, accountability, and collaboration, not leadership.

Essay Question 2: Challenges and/or obstacles the applicant has experienced.

Reflect on a particularly challenging personal, educational, or professional experience you encountered. What resources, personal, educational, and/or professional, did you seek out and use? How did you overcome this? What was the outcome? How will this experience shape how you will work through challenges in nursing school?
